Íslands

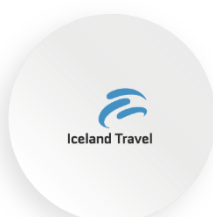

**Á 75 ára afmæli  
félagsins árið 2012  
var tekin ákvörðun  
um að Icelandair  
Group myndi verða  
leiðandi á sviði  
umhverfismála**

# 5 árum síðar þegar 80 ára afmælinu er fagnað hafa öll fyrirtæki innan Icelandair Group samstæðunnar hlotið **alþjóðlega umhverfisvottun**

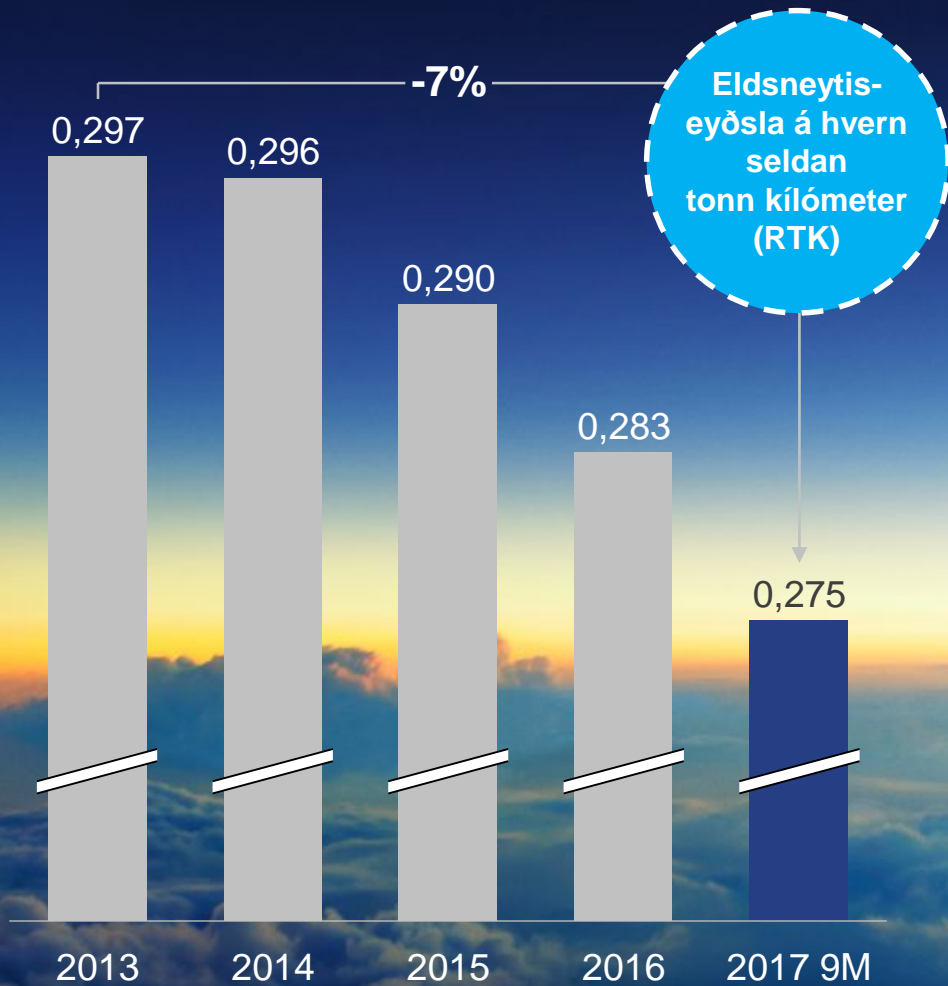

# Faggildar vottunarstofur staðfesta að við uppfyllum kröfur til vottunar

## Stefna Icelandair Group:

**Minnka kolefnis-  
spor félagsins  
og auka  
umhverfisvitund**

# Icelandair hefur farið í ýmsar aðgerðir til að draga úr eldsneytisnotkun flugvéla sem skilað hafa sýnilegum árangri

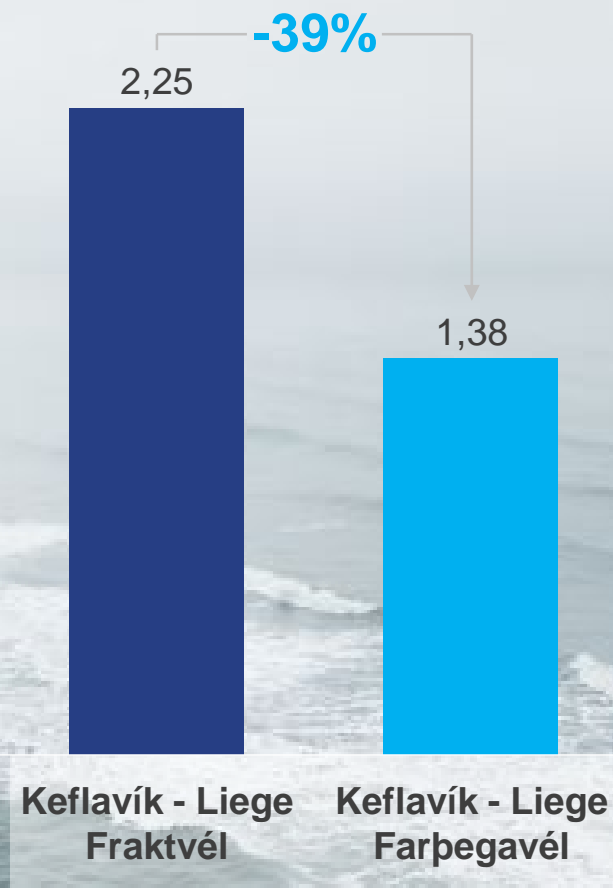

# Áhersla er lögð á flutninga með frakt í farþegaþotum félagsins

Ef flutningur á þorski á milli Keflavíkur og Liege í Frakklandi er skoðaður sést að 39% minna af koltvísýringi berst út í andrúmsloftið ef flutt er með farþegavél í stað fraktvélar

Á næstu 4 árum  
mun félagið taka í  
notkun alls 16  
Boeing 737 MAX  
flugvélar sem er ný  
og sparneytnari  
flugvélagerð

## Stefna Icelandair Group:

Minnka kolefnis-  
spor félagsins  
og auka  
umhverfisvitund

Auka  
endurvinnslu  
og minnka  
sorp

**Meðaltal af sorpi per gistinótt hjá Icelandair Hotels

**LEIÐBEININGAR  
 FYRIR BIRGJA  
 ICELANDAIR GROUP**

**GUIDELINES  
 FOR SUPPLIERS  
 TO ICELANDAIR GROUP**

Þessar leiðbeiningar eru til viðmiðunar fyrir alla birgja sem starfa með Icelandair Group. Við hvetjum alla til þess að fylgja þeim í hvívetna. Eftirfarandi þættir skipta máli fyrir umhverfið og með aðstoð birgja getum við minnkað umhverfisáhrif við daglegstörfvinnu frekar. Það er ýmislegt hægt að gera:

We ask all our suppliers to look to these guidelines when working with Icelandair Group. The following factors are important when it comes to protecting the environment, and with your help, we can minimize the environmental impact of our daily operations.

**Umbúðir**  
 Leitast skal við að lágmarka umbúðir og pakkningar á vörum sem sendar eru til fyrirtækja Icelandair Group. Einnig skal velja umhverfisvænni pakkningar eftir því sem kostur er.

Here are some steps you can take to help us protect the environment:

**Pappír**  
 Allur pappír sem seldur er til fyrirtækja Icelandair Group skal vera merktur með viðurkenndu umhverfismerkni. Leitist við að nota rafræn reikningsviðskipti frekar en unnt.

**Packaging**  
 Minimise the amount of packaging used. Use environmentally-friendly packing materials where possible.

**Eldsneytisnotkun**  
 Mikilvægt er að birgjar skipuleggja hættaáætlanir og dragi þannig úr gróðruáhrifum. Þetta bruna á eldsneyti. Einnig skal miðað við innflutning á vörum.

**Travel**  
 Organise travel as efficiently as possible in order to minimise CO2 emissions. Keep the same in mind when transporting goods.

**Varasöm**  
 Almenn varasöm efni. Ef ekki verður hjátt á, skal birgi leitast við að finna umhverfisvænni varasöm efni sem völ er á. Birgjar skulu fylgja gildandi reglugerðum um merkingar og meðferð þessara efna.

**Eco-friendly products**  
 We ask our suppliers to show initiative in providing environmentally-friendly solutions and products.

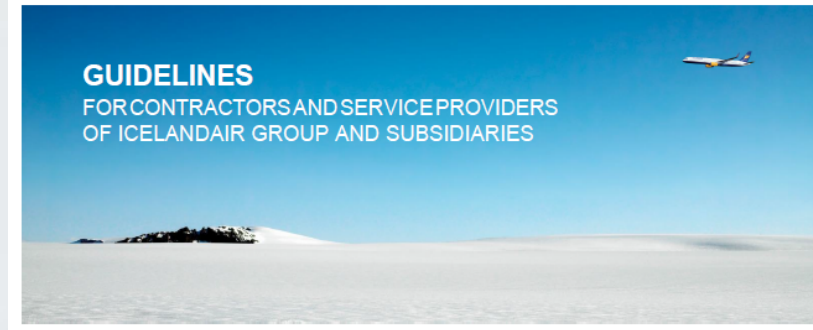

**Vistvænar vörur**  
 Birgjar Icelandair Group skulu sýna frumkvæði í að finna umhverfisvænar lausnir og vörur í stað þeirra sem nú þegar eru í notkun.

**Paper**  
 All paper sold to Icelandair Group must be labelled as environmentally friendly. We encourage the use of electronic billing systems to reduce paper waste.

**Öryggisblöð**  
 Icelandair Group væntir þess að birgjar hættumerkra og varasamra efna afhendi og uppfæri öryggisblöð allra hættumerkra efna sem keyptu eru hjá þeim.

**Hazardous substances**  
 Avoid using hazardous materials and chemicals. If this cannot be avoided, aim to find the most environmentally-friendly solution available. Suppliers are requested to always heed current regulations when it comes to handling dangerous goods.

**Safety instructions**  
 Icelandair Group expects suppliers to provide clear and up-to-date safety information for hazard-labelled products.

**GUIDELINES  
 FOR CONTRACTORS AND SERVICE PROVIDERS  
 OF ICELANDAIR GROUP AND SUBSIDIARIES**

Icelandair Group and its subsidiaries (IG) have in place a clear policy regarding environmental criteria, transparency and good business practices. We require that contractors and service providers working for the company observe these guidelines in all respects. We also require them to be in full compliance with Icelandair Group Anti-Corruption and Bribery Policy, available at [www.icelandairgroup.is](http://www.icelandairgroup.is). Below is a clarification of the elements that make up IG's policy. Your co-operation in this area is important to us, as it will assist us in our effort to ensure that the company's corporate responsibility extends to all aspects of its operations.

**Waste:**  
 All waste should be sorted for recycling to the extent possible. If this is not an option, the contractor himself is required to remove waste from his work area for delivery to an approved waste collection site.

Fuel shall be stored and pumped in a way to prevent any leakage into the environment.

**Use of substances:**  
 Current regulations on the treatment of substances shall be observed, as well as instructions in safety data sheets, if the project requires the use of substances carrying hazard symbols. The release of such substances into the environment, sewage systems or drains on premises is prohibited.

**Obligations to employees:**  
 At all employees involved in any work for the contractor, a sub-contractor or service agency, are paid wages and benefits in accordance with applicable laws and regulations as current at any time. Working conditions shall comply with occupational safety and health regulations. We will not tolerate violations of workers' safety rules. Immediate action should be taken if any such incidents arise.

**Noise:**  
 At the work site care shall be taken to comply with regulations made in regulations on noise levels. Noise shall be controlled so as to cause minimal disturbance.

**Health and safety at the workplace:**  
 We emphasise health protection and personal safety in all activities of the company. We want to create a safe workplace and we encourage everyone to contribute to the prevention of accidents. IG pursues a zero-accident policy.

**Disposal of toxic waste:**  
 All toxic waste shall be kept in a safe place and delivered to an approved waste collection plant.

**Services provided and contracting:**  
 It is IG's policy to do business with socially responsible enterprises that respect their obligations regarding taxes, social security and other legal obligations.

**Use of electricity:**  
 IG's environmental policy includes the goal of reducing electricity consumption. We emphasise judicious use of resources and expect our suppliers to take into consideration to electricity consumption. Contractors should use energy efficient machinery and tools in work performed.

and in the municipality where work is carried out or services provided during the term of the contract.

**Use of fuel:**  
 Contractors and service providers shall endeavour to minimise fuel consumption and emissions when driving. Leaving a vehicle running when unattended or parked for more than a brief moment is not permitted.

**Products labelled as dangerous:**  
 The use of substances labelled as dangerous shall be avoided except in exceptional cases. Safety data sheets shall be obtained for all substances that are subject to labelling obligations. Products that carry approved eco-labels should be selected.
